The DIMMER VIEW

by Max Goodwin

Supreme Court Constitutional?

It's a crime the mess the Supreme Courts have gotten this country into.

Because some Supreme Court Justices believe they have been given the right to legislate, many of our good laws have been re-arranged by Supreme Court edict. They have turned laws against criminals into laws against the public and criminals are having a field day.

Adult crimes in the United States have risen eight times as fast as population according to one study. The FBI, in a report released this week, listed serious crime up 17% and armed robbery was up 34%.

More and more Congressmen are becoming concerned about this sorry situation and many are asking questions — and demanding answers. A most hopeful recent sign was the Congressional rejection of Justice Abe Fortas' nomination as chief justice by President Lyndon Johnson.

We suspect Congress is getting fed up with the usurpation of its powers by befuddled old men in the U.S. Supreme Court, and equally mixed up by less aged men in State Supreme Courts.

In courts at all levels there are logical, dedicated justices who believe the non-criminal public has some rights in spite of the fact that many of the decisions arrived at by their fellow jurists are considered to be "illogical, fallacious, incongruous, and unjust."

This descriptive was offered recently by Justice Michael A. Musmanno, of the Supreme Court of Pennsylvania. He spoke it at a convention of chiefs of police of the nation at their annual get-together in Philadelphia.

He expressed great concern over Supreme Court invasion into the law-making field. He said that the U.S. Supreme Court is not only taking liberties with the Constitution, but is setting itself up as a body not by the remotest interpretation even mentioned in the Constitution. The Supreme Court is acting as a super-Senate by unabashedly making law.

"For example, on June 3, the Court, in the Witherspoon case, practically wiped out capital punishment without the slightest authority so to do," he said.

"I oppose the death penalty, but if it is to be eliminated, it must be done by Congress and the state legislature," he said.

In the Witherspoon case, the defendant was being pursued by the police. He concealed himself in a trailer-truck and when a policeman arrived, he premeditatedly and cold-bloodedly murdered him. He was convicted and sentenced to death. The Supreme Court reversed the conviction on the thesis that persons who oppose capital punishment were excluded from the jury. Justice Stewart, who wrote the Majority Opinion said the State had entrusted "the determination of whether a man should live or die to a tribunal organized to return a verdict of death."

Said Justice Musmanno: "... this is stuff and nonsense. The jury was not organized to return a verdict of death. It could have brought in a verdict of murder with life imprisonment, second degree murder, manslaughter, or it could have acquitted outrightly. What (the Court) did was (to seat itself) as a super-legislature. This was an invasion of the legislative department of government, which, in itself, is unconstitutional."

In spite of the fact that Supreme Court Justices at both state and federal levels are charged with the obligation of upholding the Constitution, impelling respect for the law and ensuring domestic tranquility, here are a couple of cases that nettles Justice Musmanno.

Recently, the Supreme Court invalidated the conviction of a man (Wayne Bumper) proved guilty of a list of offenses. He held up a young woman and her male escort with a rifle. Threatening death, he raped the girl. He then tied them to separate trees and raped the girl again. He shot both of them but luckily, both survived. Police obtained a warrant and went to the rape artist's house where he lived with his grandmother. The grandmother said she did not need to see the search warrant and invited the police to search the house. They found the rifle the man had used in the crimes. The man was positively identified by the victims of his bestial crimes and the jury found him guilty.

But the Supreme Court reversed the verdict because the police did not "read" the warrant to the grandmother.

Justice Musmanno says it is decisions like these which bring the Court's logic into question.

Another case is the incredible Andrew Mallory decision where the defendant confessed to raping a woman. Because the police were delayed several hours in taking him before a magistrate for arraignment, the Supreme Court released him. What happened to Mallory? He went out and raped another woman. Still later he was convicted of burglary. The Supreme Court released him to commit other crimes against the innocent.

The Supreme Court not only impedes police, but it interferes with the security of the United States in its battle against spies and subversives. On Dec. 11, 1967, the Supreme Court held that Eugene Robel, a member of a Communist action group, could not be prosecuted for working in a war defense industry even though an Act of Congress specifically prohibits such employment under penalty of a prison sentence.

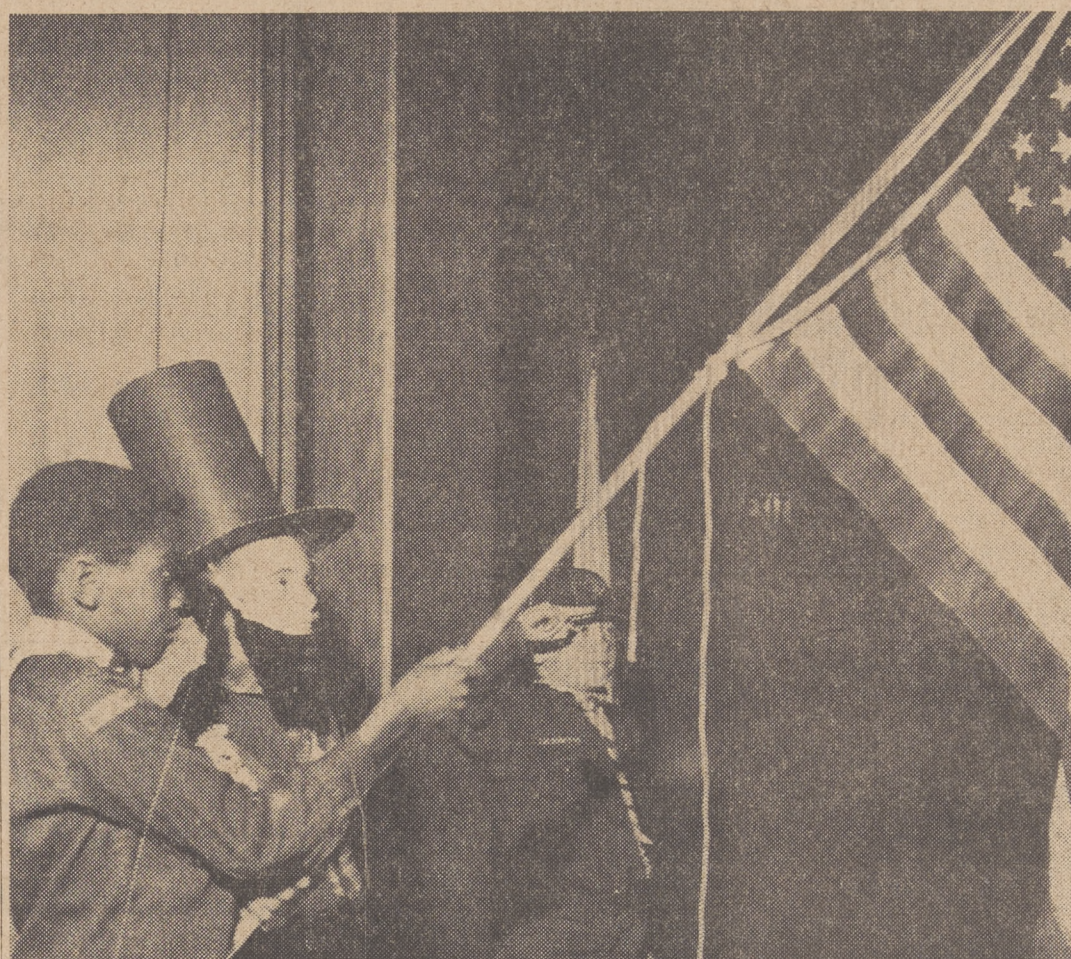

In that case Chief Justice Earl Warren held that Robel might not have agreed with the Communist conspiracy of which he was a willing member. Says Musmanno, "that is like saying a wolf, devouring the flesh of a sheep dragged to its lair by fellow-wolves, might not have approved the method by which his brother-wolves got his dinner for him."

Then, seeking another reason to support his decision, Chief Justice Warren said that Robel might not have known of the criminal objectives of the Communist Party!

In the Keyishian case, Supreme Court Justice Brennan said that a college professor may not be dismissed for teaching or advocating in college, or anywhere, the overthrow of our government by force and violence. According to this reasoning, says Justice Musmanno, "Benedict Arnold could not be dismissed for teaching at West Point."

Musmanno adds: "... members of the Supreme Court are taking undue liberties with the Constitution. Judge Brennan, who wrote the Majority Opinion in the Keyishian case spoke of academic freedom as a constitutional right. The Constitution does not mention academic freedom. Anyhow, what Justice Brennan advocated was not academic freedom but academic anarchy! In the Robel case, Chief Justice Warren kept insisting that Robel was entitled to associate with Communist conspirators because he is guaranteed the right of association

Panoramic View '80' At Alpine Opens Today

The California Division of Highways announced approximately 4.5 miles of Interstate Freeway Route 8 near Alpine opened to traffic today. The portion to be opened is from the Dunbar lane interchange easterly to 3/4 mile west of the Willows.

Traffic will be detoured the remaining 1.5 miles through construction by placing east-bound and westbound traffic

on the westbound lanes near the Willows until construction is completed in the areas of West Willows rd. interchange and Viejas Creek.

Existing Highway 80 (to be renamed Alpine Blvd.) will have access to the freeway at Dunbar lane and Tavern rd. Interchanges. The Tavern rd. interchange will provide access to Alpine via Alpine Blvd. Traffic to Peutz Valley should

use Dunbar lane off-ramp to Alpine Blvd. Traffic to the Willows will continue to use the existing Willows rd. intersection.

Alpine Blvd. will be closed temporarily at the boundary of the Cleveland National Forest west of the Willows while construction of West Willows rd. interchange is completed.

The design and construction of this modern freeway was coordinated with the existing terrain to provide a panoramic view of the surrounding area. Scenic points of interest provided by the split level roadways include: Harbison Canyon, Alpine and El Capitan Lake.

The entire project should be completed in approximately two months.

Subscription List Grows Another 90

Here is a list of ninety more subscribers.

This brings to 1,531 the number of families who have taken part in this newspaper's most recent subscription campaign.

The campaign started in December to bring the total circulation of the combined editions of the Lemon Grove Review and the Spring Valley Bulletin to the 10,000 mark. It is anticipated that this level will be surpassed before the campaign ends.

As an inducement to new subscribers, a contribution is being made in the name of each family to the Home of Guided Hands, the facility for the mentally retarded at 10025 Los Coches rd. in Lakeside. Funds given in this contribu-

tion will be used for the facility's landscaping project. The Home is open to the public and is operated as a non-profit institution for mentally retarded of all ages. Some patients will never know another home than the Home of Guided Hands.

Burglary Nets \$21,900 In Casa de Oro

No clues have been uncovered in the \$21,900 burglary of a Casa de Oro home Sheriff's Deputies said Wednesday.

Under investigation is the theft of a 90 pound safe with its \$21,900 contents from the home of Cmdr. (USN ret.) and Mrs. William McKenna of 10966 Puebla dr., Casa de Oro.

The loss occurred Friday when Mrs. McKenna went to get her child from school.

During her absence the burglar entered the house through the front door, took the safe which was kept on the floor of a bedroom closet, and left by the rear door. The safe — 14 inches by 14 inches by 18 inches, has not been recovered.

Cmdr. McKenna said that he had a "homeowners" insurance package that would probably repay his loss.

Most of the valuable in the safe were securities although about \$250 in cash and several valuable pieces of jewelry which he had acquired during his travels over the globe.

Cmdr. McKenna retired from the Navy about eight years ago and has been in real estate transactions in the East County during the past several years.

Mrs. McKenna told detectives of the Sheriff's East County sub-station that she had left home about noon Friday and returned with her child about a half-hour later. She said she locked the house before leaving.

Sheriff's deputies said Wednesday that immediate clues had been exhausted.

Climbers Saved At Old Quarry

The same urge that drives men to climb the highest mountain draws boys to the abandoned rock quarry at 3900 Quarry rd. just east of Lemon Grove.

The urge drew Martin Ucker, 13, David Crocker, 13, and his brother Rick, 11, all of La Mesa, to the 150-foot cliff Saturday. They almost made it to the top.

La Mesa firemen rescued them from a point about 25 feet below the top when they became stranded. They were pulled to the top with ropes. Firemen administered first aid to the boys for cuts and bruises.

The quarry is a regular port of call for the fire department.

Rain Blamed In Jamul Wreck

by Mary Bonner

An elderly Jamul man narrowly escaped death Feb. 25 as his small car left the road and toppled upside down in a drainage ditch three miles off Highway 94 on Lyons Valley road in Jamul.

The unidentified man said that he was going at a speed of about 25 MPH on the rain soaked pavement as he rounded the corner when he lost control of the vehicle.

He said that he escaped the wreckage through the back window that was shattered in the crash.

The CHP on the scene said, "It was amazing that he wasn't killed because of the fact that he didn't have his safety belt fastened and the car turned completely over."

The only injury he sustained from the crash was on the left rib where he said, "It is probably only a bruise."

It is found to be a dynamic era during which new frontiers are being found in outer space.

Therefore, we hope to come up with a theme that dramatically portrays the start of this exciting era — one that will give tribute to the accomplishments of the past, but will also give a look of optimism to the future."

Themes first became a part of the Tournament scene in 1927 when the overall motif was "Songs." Other themes through the years have been "Festival Days" (1930); "The

Always and Everywhere

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is far more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

Local Author's 'Crime Game' Is Best Seller

John D'Alfonso, a former reporter for the now defunct San Diego Journal, has written an absorbing anti-crime study that reads like a good novel. The book's title is "The Crime Game."

D'Alfonso, was city hall reporter and a radio (KSDJ) newscaster in San Diego who started his own highly successful insurance and mutual funds firm when the Journal suspended publication. His firm is now located at 40th and El Cajon Blvd.

Using several San Diego crimes to make his point, he builds "The Crime Game" into an indictment of state and federal Supreme Courts as a cause of the dramatic increase in crime.

Even after leaving the news field, his interest stayed with the problems of crime.

D'Alfonso is president of the "Stamp Out Crime Crusade," a movement that stemmed from the Exchange club's Crime Prevention Week project. In SOCC, eight or nine lay individuals each month are honored for participation in law enforcement.

In "The Crime Game" D'Alfonso shows that the criminal does not get the penalty called for by law. He uses local murderers Joseph Bernard Morse and Raymond Goedecke, both of Chula Vista, as cases in point. Both of these men, plus a clutch of others described in the book, were sentenced to be executed — but none was, and probably never will be.

The book is replete with familiar San Diego names such as S.D. Police Chief James Roed; S.D. County Sheriff Joe O'Connor; S.D. District Attorney Don James Keller and a long list of local judges, attorneys, newsmen, and lawmen.

Anyone interested in the causes and cures of lawlessness will want to read D'Alfonso's "The Crime Game." It is a studiously researched book that should be on the bookshelf of every concerned San Diegan.

The book is paperback, sells for \$1, and is currently on the best-seller list at local book stores.

About the author: he is president of the California District's 45,000 members of the National Exchange club; is founder and first president of Mission Valley Tennis Club, and serves (past and present) on boards of the Salvation Army; Chamber of Commerce PR committee; Community Chest; Epilepsy Society; Cystic Fibrosis Foundation; National Conference of Christians and Jews, and the City Urban Renewal Commission.

He has given more than 100 talks throughout the state and in the midwest on the Stamp

Learn Spanish the Easy Way

Hardison's Telespanish

by James Hardison

Is there any difference between the Spanish that is spoken along the border and that which is spoken in the interior of Mexico? If there is any difference, can you provide some examples of the variations?

This is a very good question and the answer requires elaboration. Most of the Spanish that is spoken along the border is identical to that which is used in the interior of Mexico. There are, however, many cases where English words have incorrectly had Spanish phonetics and endings applied. These combinations have resulted in words which are neither English or Spanish and are understood only by people who live along the border where both languages influence their speech.

A typical case of a mixed English-Spanish phrase is demonstrated in the incorrect expression "Voy a parquiar la troca." The part of the phrase "Voy a" (I am going to) is good usage. However, "parquiar" is derived from the English "park" which has had the Spanish phonetics and ending applied. Also, "la troca" is an adaptation of the English word "truck" with Spanish phonetics. This type of phrase may be heard and understood along the border but it would not be considered as good usage in the interior.

Correct Spanish for the phrase is "Voy a estacionar el camion," which uses "estacionar" (to park) and "camion" (truck). This phrase would be understood in the interior as well as along the border.

Today's practice phrases are understood in both places, and may be heard by dialing 276-2762 on your telephone. A re-

corded voice will assist you in the pronunciation.

IMPORTANT PHRASES:

Say "Quien estaciona el camion?" (kee-EHN eh-stah-see AH-nan ehl kah-mee-OHN) for "Who is parking the truck?"

Say "El lo estaciona." (ehl loh eh-stah-see-OH-nah) for "He is parking it."

USEFUL PHRASES

Say "Como lo hace?" (KOH-moh loh AH-seh) for "How does he do it?" Say "Con sus manos!" (kohn soos MAH-nohs) for "With his hands."

OTHER PHRASES

Say "Adonde lo estaciono?" (ah-DOHN-deh loh eh-stah-see-oh-NOH) for "Where did he park it?" Say "En la esquina." (ehn lah eh-SKEE-nah) for "On the corner."

TEMPUS FUGIT — Those are the words on this antique English clock from the Regency Period (1830). Mrs. Lillian Kerr, owner of this and other antiques, checks her wrist watch and finds it is so — time does fly. Both watch and clock (which is in running condition are ticking off the minutes as the April 11-12-13 4th Annual San Diego Antique Show & Sale approaches. Mrs. Kerr of 2046 Berry st., Lemon Grove operates Lillian's Antiques and will show this clock and other antiques at the show which should be of interest to collectors. This year's show will be held in the Scottish Rite Temple. In keeping with San Diego's 200th Anniversary, decor will be Spanish and members of the Antique Dealers Association will wear historical costumes, according to Mrs. Kerr. Oh yes. The clock will go on sale for \$675 and will probably be bought by someone who is deeply concerned about precious time.

SOCIAL SECURITY

This question and answer column about the Social Security program is presented as a public service to our readers. The questions are those most frequently asked about Social Security. Answers are provided by Sumio Ota, El Cajon Social Security District Manager. Call him at 442-0857.

Q. I plan to retire this year at age 62. I only worked a little under Social Security and will only be eligible for the minimum amount. How much a month will I receive?

A. The minimum monthly benefit for a retired worker at age 65 is \$55. However, this will be reduced to \$44 a month if taken at age 62.

Q. If I am hospitalized, do I have to file a claim for the Medicare payments?

A. No. If the hospital participates in Medicare, the people at the hospital will do this for you. They will receive the payment from Medicare directly.

The Social Security Administration will then advise you of how many hospital days you have used in your current benefit period.

Q. I am a clergyman and would like to be covered by Social Security. How do I do this?

A. For taxable years ending after December 1967, earnings from services as a clergyman will automatically be covered under social security as self-employment income, unless the clergyman files an application with the Internal Revenue Service to have it excluded.

Water Pollution Bill Handed To Congress

Congressman James B. Utt (R-35th) has introduced an amendment to the Water Pollution Control Act to prevent the pollution of water by oil.

The bill would also establish a revolving fund for the removal of oil discharged into or upon the navigable waters of the United States or adjoining shorelines.

A number of other Southern California Congressmen joined him in the action to prevent future disasters such as the uncontrolled undersea oil leak off Santa Barbara.

The proposed bill (H.R. 6555) was referred to the Committee on Public Works.

ed because of his religious principles.

Q. I have a hernia that has bothered me for years. Will Medicare pay for a truss?

A. Medicare will pay for the truss if it is obtained on a physician's order.

If you have further questions regarding the Social Security Law, contact or write the Social Security District Office, 570 North Second St., El Cajon.

State Controller Reports Receipts

State Controller Houston I. Flournoy reported General Fund receipts for the first seven months of fiscal 1968-69, ending Jan. 31, of \$1,862,243,844, compared with \$1,512,339,679 for the comparable period of 1967-68.

The increase of \$349,904,165 continued to reflect new tax programs enacted in 1967.

General Fund disbursements so far this fiscal year have amounted to \$2,130,956,824, the Controller said, an increase of \$396,452,803 over the \$1,734,504,021 disbursed during the same period last year.

New Magazine Views Aging Via Fish Life

"Aging: Oceanography and Geriatrics," an in-depth report is presented in the second issue of OCEANS Magazine. Author Igor Lobanov-Rostovsky will present a very exciting article on a recent oceanographic study of the North Pacific salmon which was concluded in the fall of 1968.

A team of 37 scientists from four nations under the joint leadership of Doctor Andrew A. Benson, Professor of Biology and Associate Director of Scripps Institution of Oceanography in La Jolla and Doctor Walter Garey of the Scripps Physiological Research Laboratory spent six weeks on the coastal waters and streams of British Columbia studying the process of aging.

They analyzed the deterioration of the pink, chum, coho, and sockeye salmon with the aid of a floating biology laboratory.

The fish progress through their life cycle from sexual maturation to death within weeks. The results of this research should have particular impact and import to humans.

From a medical viewpoint the salmon is an ideal example in which to study correlations among various geriatric problems.

OCEANS is a brand new slick paper magazine published monthly in La Jolla.

'Big League' Boxing Scheduled For San Diego Sports Arena

TOP RANKING CONTENDER — Luis Rodriguez carries an excellent record into the ring against Rafael Gutierrez, present Mexican middleweight champion. Bout is first big time boxing match slated in the San Diego International Sports Arena.

April Rodeo Set For Lakeside

The Chamber of Commerce-sponsored Family Fair will combine with a rodeo in a four day celebration in Lakeside April 17, 18, 19, 20 — Dr. Samuel Sloan, Chamber president, announced.

The Rodeo is sponsored, again this year by the El Capitan Stadium Association, headed by Art Sattler, president.

The combination of the "Family Fair", now in its 7th year — with the Stadium Association Rodeo should prove to be a fine event, as the attendance was over 38,000 last year.

"The Family Fair, a free event will be held on an acreage fronting on Channel rd., just north of Woodside ave. with plenty of parking", states Chairman of the Fair Board, Hal Rakowski.

He said Family Fair has a contract with West Coast Shows, largest Carnival in the West, for carnival rides, game booths, food concessions and a huge "Big Top" tent that will house 66 commercial displays.

Priced at \$2.50 for adults and \$1.25 for children (under 12) the rodeo is scheduled for Sat. and Sun., April 19-20 performance at 2 p.m. each day.

There will be a parade at 11 a.m. Saturday 19th.

Fish Derby Set For Indian Guides

The Annual YMCA Fishing Derby for Y-Indian Guide Father and Sons will be held on Saturday at El Capitan City Lake.

More than 500 Little Braves will be trying their luck to pull out the biggest fish. Last year's record fish, an 8 lbs. 2 oz. Florida Bass — caught by Robert Pachon, will be hard to top.

Prizes will be awarded to the Little Braves catching the largest fish in each of four categories: Blue Gill — Crappie — Catfish — Bass.

Fathers will join their sons in the fun, but can't do any of the fishing. Fishing begins at 6 a.m. and ends at 2 p.m.

The Fishing Derby for YMCA boys is made possible by the cooperations of the San Diego County Fish and Game Association and the San Diego City Lakes Committee.

San Diego will go "big league" in still another sport on March 31 at 8:30 p.m.

Luis Rodriguez will fight Rafael Gutierrez at the San Diego International Sports Arena in the first major boxing bout in San Diego sport history.

This match, featuring top quality fighters, is planned as the first in a series of boxing events to be set in the Arena. Rodriguez is the number one ranked contender for the middleweight championship. Gutierrez is Mexican middleweight champion and ranked in the top ten by the World Boxing Association.

This bout takes on added interest for fans because the winner of the sanctioned twelve round elimination fight will meet Nino Benvenuti of Italy for the Middleweight Championship of the World.

Boxing fans are familiar with the popular Benvenuti and sports fans in San Diego may be in for the thrills of a championship fight soon.

"We are in contact with Benvenuti's manager and hope to have an announcement soon concerning the World Middleweight Championship being held in San Diego as part of the 200th Anniversary festivities," said Les Land, General Manager of the Sports Arena.

Land said plans are for a boxing program with continuity so that there will be six or eight bouts in the following months. At first bouts will be scheduled for Monday nights on a monthly basis.

A.A.U. fights are set for April 16, 17 and 18 at the Sports Arena, Land said.

Tickets for the Rodriguez-Gutierrez bout are now on sale locally and also in Tijuana, Tecate, Mexicali and Ensenada at ticket offices recently opened to sell tickets to all Arena events and major attractions in San Diego.

There will be discount procedures arranged for military personnel for the March 31 fight.

Sycamore Canyon Scout Camporee Set For April

Boy Scouts, 1,300 of them, and adult leaders will be moving into Sycamore Canyon in Santee Friday night, April 11, for their annual Camporee all day Saturday, April 12.

The Grossmont District of the San Diego Council, Boy Scouts of America, has set these dates for this year's Camporee and committee of 26 volunteer adult leaders under the direction of chairman Jim Osborne of La Mesa, has been meeting bi-weekly at the La Mesa Chamber of Commerce building putting this year's schedule together.

Sycamore Canyon was again chosen as this year's Camporee site because it is the most centrally located large campsite area in the Grossmont District. The owners of the canyon property are allowing the scouts to use their land because of the excellent condition it was left in after last year's Camporee.

The site still has the roads marked out from last year and in addition the area was burned off by the Santee fire department last year making it more ideal for a Scout Camporee.

The Camporee committee elected to follow the 200th Anniversary theme with the Camporee patch depicting the Padre Trail. It was pointed out that the Camporee site is within a couple of miles of the original Mission Dam and Flume. All the scouts and adults will receive a Camporee patch when they attend.

The Boy Scout troops will be responsible for the Webelos that they host. The Webelos that are unable to attach themselves to a troop will be invited to the campfire in the evening of the Camporee when all the Webelos will have a special section reserved for them at the ceremonies.

Parents and the general public are invited to attend the campfire ceremonies. There will be ample parking and a staff to direct the parking of visitors Saturday night.

Safflower plants produce a dyestuff that has been used since early Egyptian days.

Monarch Team Split In Two Cinder Events

by SCOTT McGAUGH

If nothing else, Monte Vista became aware of a very big problem last week — the need of a sprinter for the track team.

The Monarch cindermen split their two meets last week by winning their final tune-up meet, 64-53, over Hilltop and by being edged by Grossmont, 70-66, in their league opener.

The Monarchs couldn't pick up a first until Steve Gillean took the 880. The Monarchs then swept the first three places in the mile and two-mile with Dave Carter taking the mile and Tom Lux winning the two-mile.

Tom Nielsen took the 120 high hurdles and the 180 low hurdles while Pat Foley picked up a win in the shot put with a heave of 56-1 3/4". Wayne Comfort set a personal record by jumping 5-10" for a victory in the high jump.

Then, going into their league opener undefeated, the Monarch cindermen fell behind early against the Foot-hillers and couldn't quite catch up.

The Monarchs took first in eight of the fifteen events but a Grossmont sweep in the pole vault and more depth more than made up.

Bill Thompson brought the Monarchs their first win of the afternoon in the 440. Joe Mears of Monte Vista took the mile while Dave Carter was able to lap a Foothiller in taking the two-mile. Royal took the triple jump with a 42-1 1/4" effort.

Monarch Pat Foley took first in the shot put and discus with efforts of 57-3 1/2" and 164-8 respectively.

Swim Season Opens

Helix Off to Coronado; LM Swim Team Sets Record

by DON KIENER

The Helix swim team will travel to Coronado for their season opener Friday, starting at 3 p.m.

"I'd say Coronado is one of the best five teams in CIF," said Helix coach Jon Crawford.

The Scots, who boast 12 returning lettermen, will have four school record holders on this year's squad. Sophomore Mike Nelson holds the school records in the 200 meter individual medley and 400 meter freestyle. Another sophomore, Kirk Teigan, holds the record for the 100 meter freestyle and junior Randy Giefer tied the mark in the 100 meter breaststroke last season. Senior Rich Gleason was a member of the record-breaking 400 meter freestyle relay team, as were Nelson and Teigan.

"It should be one of the best teams Helix has ever had," said Crawford. "I'd say we'll be one of the best three teams in CIF this year."

In other swimming activity, La Mesa swimmers set three records at a relay meet for Juniors (14 and under) March 1 and 2 at the Municipal pool in Escondido. Results:

Pianist at Grossmont

A special treat is in store for Community Concert members when they hear Israeli Soprano Netania Davrahi in the final concert of the Grossmont season Wednesday at 8:15 p.m. in Grossmont High School Auditorium.

This is the bonus concert for new Grossmont members. Single concert admissions are not available.

Thieves Take Copper Piping

Copper piping valued at \$500 dollars was stolen last week from R. A. Wiley and Sons (El Cajon plumbing contractors) at a construction site at Leland and St. George Spring Valley.

A chain link fence was torn down to gain access to three 20-foot pipe lengths. Two lengths of 4-inch diameter pipe and one length of 1 1/2-inch diameter pipe were taken.

Sheriff's deputies believe several persons were involved because of the weight and length of the stolen piping. There are no suspects.

Cordless telephones are on the way, bringing up the problem in many families of the phone ringing at 2 a.m., and trying to remember whether the phone was left in the attic or the basement.

DO MICE LIKE FRESCA? Science Fairs in Spring Valley produced much imaginative research on a wide variety of subjects. Carole Webster (above) won a top award for her study of mice and effects of ingested artificial sweeteners. Other studies were done on such subjects as: "Which

Web, For What and Why?" by Tina Massa; "What Are the Effects of X-Rays on Plant Life?" by Steve Webb and Jim Lavoie; "What Gives an Airplane Lift?" by Marc Bailey; "Can You See Sound?" by Rick and Larry Hunts; "How Can Water Be Softened and Purified?" by Tori Budvarson.

S.V. Science Fairs Produce Imaginative Research Efforts

Science Fair winners at Spring Valley Junior High are a proud bunch of students.

Ten science projects from the school were selected to represent Spring Valley Junior High School at the Greater San Diego Science Fair to be held April 10-13.

Sixty-eight projects were displayed Feb. 27 at the school.

Winners of the sweepstakes for the most outstanding projects of the fair were: Steve Stollenwerk (7th grader), son of Mr. and Mrs. Fred Stollenwerk of 9738 Sierra Madre rd., Spring Valley; Tom Webster (8th grader), son of Dr. and Mrs. Thomas Webster of 9600 Alto rd., La Mesa.

Stollenwerk's biology project was "How Is a Skeleton Extracted From a Carcass."

Webster's project was "Can Voiceprints Be Used For Identification?"

Other first place winners were Carole Webster and Jo Ann Merino.

Miss Webster's winner was "Are Artificial Sweeteners Harmful to Mice?" Miss Merino was honored for "What is the Critical Drying Time for Polyvinyl Resin?"

Dear Editor:
Many thanks for your stand on this (communism on campus) vital issue. I pray we're not too late to do something about those groups whose intentions are perfectly clear. I've been sending wires expressing my concern regarding the Marcuse fiasco.

I am concerned about the attitudes of those in the schools. Should anyone show concern about the growing communist movement in this country, we're accused of being anti-freedom, anti-intellectuals, anti-progress, anti-youth, anti-everything. Just the opposite is true.

LEADING CRUSADE — Lemon Grove attorney Gerry Mulder (L), Mrs. Eleanor McJunkins of La Mesa (C) and Mrs. Merle Griffin (R), of 7315 Carmenita, Lemon Grove were named to spearhead the local American Cancer Society Crusade. The fight against cancer appears to be a long and hard struggle. With good leadership, sufficient funds and a spirit of cooperation more knowledge can be gained to fight to fight cancer. More volunteers are needed in the local area.

American Cancer Society Picks L.G.-S.V. Crusade Chairman

Gerry Mulder of El Cajon, a Lemon Grove attorney, was named 1969 Crusade Chairman for Lemon Grove, and Mrs. Eleanor McJunkins of La Mesa was named Crusade Chairman for Spring Valley for the Lemon Grove-Spring Valley Unit of the American Cancer Society, by Unit Chairman Mrs. Ernest Denlinger. Mulder will be assisted by Mrs. Merle Griffin who will serve as Residential Chairman for the Crusade in Lemon Grove.

Mrs. McJunkins and Mulder will join forces with other Society Crusade Chairmen throughout the county during April Cancer Control Month under the Crusade Chairmanship of Ewart W. Goodwin Jr., Vice President for Fund Rais-

ing. "I accepted this Chairmanship," Mrs. McJunkins said, "with the knowledge that it takes a great deal of funds to help cancer patients, educate people to protect themselves against cancer, and support the medical research necessary to conquer cancer."

Mulder was motivated to seek the post because family members had cancer. He feels that through these campaigns, money can be raised for the necessary research and educational programs.

Mrs. McJunkins and Mulder plan to lead a group of 200 volunteers. Many volunteers are still needed.

The educational and fund raising campaign begins April 12.

THE DIMMER VIEW (Cont.)

by the First Amendment to the Constitution. The First Amendment does not mention the right of association. Neither does any other Amendment."

Of course something should be done to curb the self-assumed arbitrary power of the Supreme Courts which in some of its decisions is crippling the power of the police, releasing dangerous criminals to prey on the public, and introducing confusion into the body of the law.

The Court is subject to the authority of Congress because the supreme judicial power of the United States is not vested in the Supreme Court but "in one supreme court and in such inferior courts as the Congress may from time to time ordain and establish." Also that the Supreme Court shall have such appellate jurisdiction "under such Regulations as the Congress shall make."

And that the supreme law of the land is not what the Supreme Court says, but the Constitution of the United States, "and the Laws of the United States shall be made in Pursuance thereof, and all Treaties made, or which shall be made under the authority of the United States."

We suspect that the idiotic interpretation of our Constitution would be stopped if enough Americans took time to write their Congressman and insist that we return to Constitutional government.

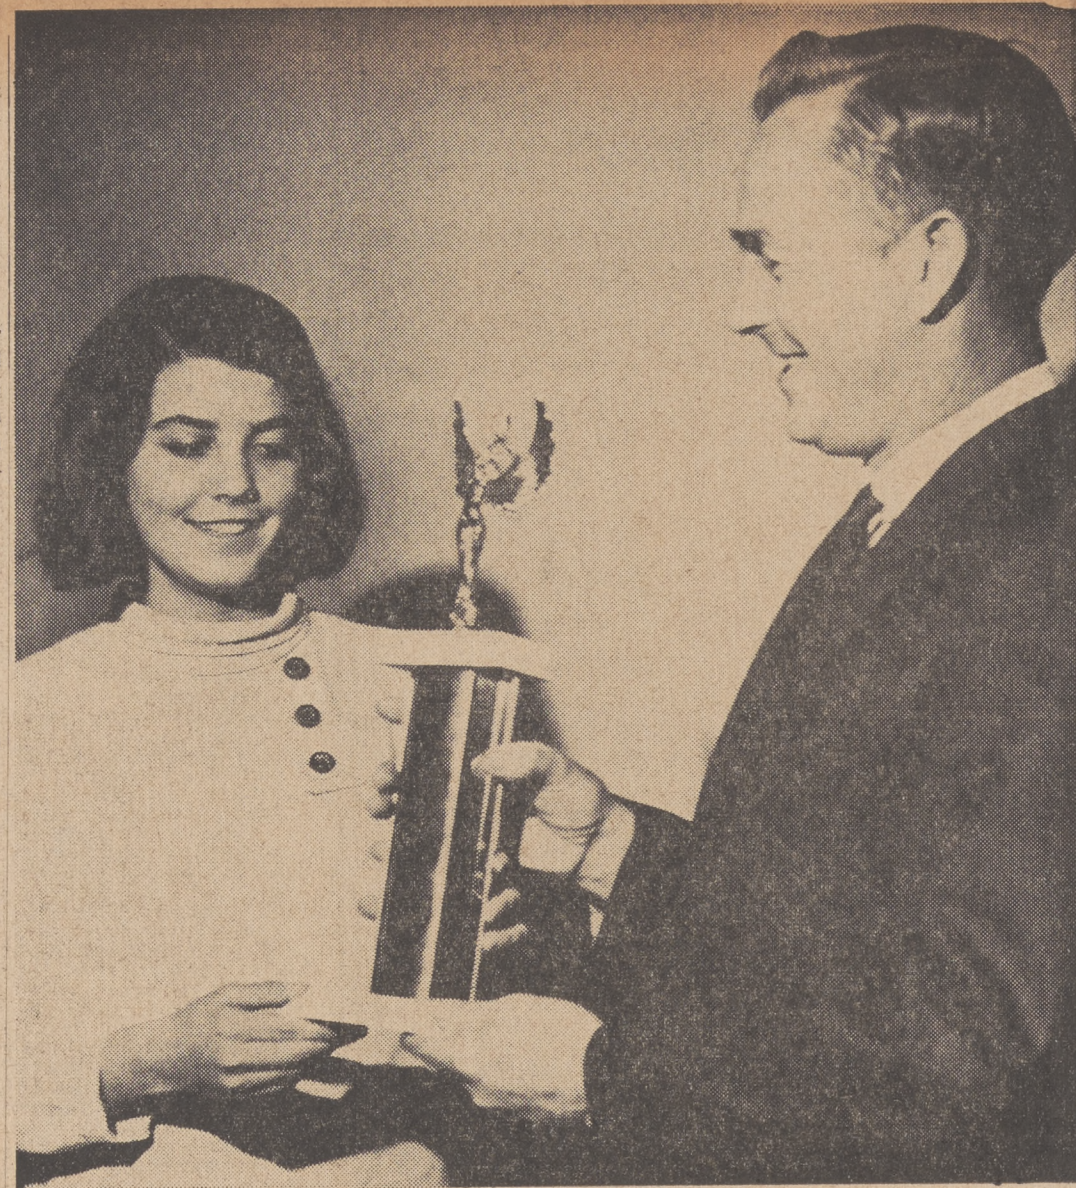

Remind your Congressman that he has the Supreme Authority in his hands to protect the Constitution.

Tell him also to make certain that President Nixon replaces some of the current crop of super-liberal Justices with men who do not have seeds loose in their gounds.

Local Doctors Re-Elected to G.P. Academy

KANSAS CITY, MO. — Two Lemon Grove doctors have been re-elected to active membership in the American Academy of General Practice, the national association of family doctors.

The doctors re-elected: Thomas Richard Early and Myron Dale Fessler, both M.D.s.

Re-election signifies that the physician has successfully completed 150 hours of accredited postgraduate medical study in the last three years. The Academy, the country's second largest national medical association, is the only medical group that requires members to keep up with medical progress through continuing education.

The Academy, founded in 1947 and headquartered in Kansas City, Mo., currently is spearheading a movement to create a new specialty of family medicine that will enhance the ability of the family physician to provide comprehensive, continuing care to the public. The foundation of the new specialty will be the Academy's postgraduate education program.

Dr. Early was a subject of a two-page spread in TIME Magazine when he came to Lemon Grove nearly a decade ago.
